REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to an interlocking isolator for a proton exchange membrane comprising a lock at the inner edge of the frame and a means in the frame for slidably interlocking an adjacent frame to create a fuel cell stack.

The prior art, such as Odgaard WO 02/039533, teaches a polymer electrode membrane assembly contained in a semi-isostatic compression constraint that restricts volume and lateral deformation. Odgaard is silent to a frame containing a lock in the inner edge, or means for slidably interlocking to an adjacent frame. Therefore, the instant claims are patentably distinct from Odgaard.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
